EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 65-67 and 75-117.

DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 65-67 and 75-117 directed to species non-elected without traverse. Accordingly, claims 65-67 and 75-117 have been cancelled.

Allowable Subject Matter

Claims 68-74 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claim 68: This claim is allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious an evanescent-wave cavity-based optical sensor system comprising an optical cavity formed by a pair of highly reflective surfaces, one or more totally internally reflecting (TIR) surfaces in an optical path between the reflective surfaces, a reflection from the TIR surface generating an evanescent wave

Art Unit: 2883

to provide an attenuated TIR sensing function, a light source to optically excite the cavity at two different wavelengths, a detector to monitor a ring-down characteristic of the cavity and wherein one or more TIR surfaces are provided with at least two functionalising materials one responsive at each of the wavelengths such that an interaction between a functionalising material and one or more targets to be sensed is detectable as a change in absorption of the evanescent wave at a wavelength , in combination with the rest of the claimed limitations.

With regard to claims 69-74: These claims are allowable over the prior art of record because they depend from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
